

FINANCIAL POLICY

The responsibility for providing complete and accurate insurance information to our staff belongs to you, the patient. Your insurance policy is a contract between you and your insurance company. Please bring your insurance card with you at each visit. As a courtesy, we will gladly submit a claim to your insurer. You must inform the office of all insurance changes, authorizations, and referral requirements. In the event the office is not informed, you will be responsible for any charges that are denied. If your insurance company does not pay the practice within a reasonable time period, (30-45 days per federal law), you are responsible for the charge.

All health plans are not the same and do not cover the same services. In the event your plan determines a service to be "not covered", or you do not have authorizations, you will be responsible for the complete charge. We will attempt to verify benefits for some specialized services. However, you remain responsible for charges of any service rendered. Patients are encouraged to contact their insurance companies for clarification of benefits prior to services being rendered.

CO-PAYS, DEDUCTIBLES AND CO-INSURANCE

Legally, we are not allowed to waive co-pays, deductibles or co-insurance. Your insurance company requires us to collect the portion for which you are responsible for at the time services are rendered. Payment made at the time of service allows us to keep administrative costs to a minimum.
